

Student opportunities at NNE

Student relations

NNE offers you the opportunity to grow and expand the skills and knowledge you obtain at university – and to acquire new ones. Our Student Relations program is a way for us to get to know you as a student and also to gain fresh perspectives and insight into the latest developments in the academic world.

As a student at NNE you get the opportunity to apply your theoretical knowledge to actual cases and to obtain a good understanding of real-life, complex problems and solutions. In addition to this valuable experience, you will build a network that you can use later on in your career.

We offer a variety of opportunities for students:

- Student internships
- Student jobs
- Master's thesis projects

On the following pages you can read more about our Student relations options and our application process.

STUDENT JOBS

Gaining work experience is the perfect way to get a better understanding of roles and assignments you wish to engage in once you finish university. You will obtain valuable industry insight and learn more about yourself, your strengths and your development potential.

Responsibilities

The responsibilities of student staff range from providing customer service and technical support, preparing for and participating in events held by our offices to assisting with various projects as needed.

Who can apply?

Student jobs are designed for students who are enrolled as degree-seeking students at an accredited college or university. Student jobs are available at all our offices worldwide and are posted as needed.

We offer between 10-20 hours a week all depending on how you can combine the job with your studies, as we know you need the flexibility, also around holiday and exam periods. Few positions are full-time positions.

Requirements

You are enrolled in a university or college program.

STUDENT INTERNSHIPS

An internship will provide you with valuable work experience and inside knowledge of the various types of positions and responsibilities at NNE. An internship usually lasts three to six months and assignments vary. Positions are both paid and unpaid and become available throughout the year.

Who can apply?

NNE's student internship program is designed for students who are enrolled in a degree program (BSc, MSc or MBA degree level) at an accredited college or university.

Engineers

The internships for engineering students are targeted at academic majors in:

- Automation
- Architecture and design
- Structural engineering
- Civil engineering
- Mechanical and electrical engineering
- Chemistry, food, biotechnology, dairy, food science or similar areas

Other areas

We also offer internships in the following areas:

- Finance/project economy
- Human resources
- IT
- Purchasing
- Sales and marketing

MASTER'S THESIS PROJECTS

A Master's thesis project is a way for us to get to know you as a student and also to learn about the latest developments in the academic world. Working on a Master's thesis is your first step into working life and, we hope, a new acquaintance with NNE.

Who can apply?

We invite Master's degree students to use NNE as a case study in dissertations or major projects within:

- Automation
- Architecture and design
- Structural engineering
- Civil engineering
- Mechanical and electrical engineering
- Chemistry, food, biotechnology, dairy, food science or similar areas

Available case projects

When we have Master's thesis projects available, we list them on our career site at www.nne.com. If no projects are announced, but you have your own idea that you think could be implemented together with us, you are welcome to contact us.

APPLICATION PROCEDURE

All student positions are posted on our website under Careers, listed in our Job section. Please submit your application online in English including:

- Your CV
- Certificates
- Cover letter describing:
 - Your qualifications
 - Technical area(s) of interest
 - The program you are studying
 - The name of your university/university college.

Please make sure to tick the relevant box "Master's Thesis Project"/"Student Internship"/"Student Job" when registering your application.

No jobs matching your profile?

We post all the job openings on [LinkedIn](#), so make sure to follow NNE. Maybe you're perfect for NNE, but we just don't know it yet. Let us know you are out there and leave us your LinkedIn profile – then we'll get in touch if we have a relevant opportunity for you.

READY TO TURN YOUR CAREER GOALS INTO REALITY?

NNE is an international company specialized in pharma engineering. We help pharmaceutical companies bring products to market by providing flexible, compliant and future-proof solutions. We have close to 1,000 professionals delivering global knowledge and best practices, all dedicated to supporting our customers globally and on local sites.

Our goal is to be the best place to work in the engineering industry. We embrace the diversity of our colleagues and are committed to providing a safe, open, honest and rewarding work environment and offer our employees:

- Challenging work and projects
- The chance to collaborate with colleagues with diverse backgrounds and experience
- Ongoing career development
